DETAILED ACTION

1. Claims 1 and 3-16 are objected to because of the following informalities: the independent claims are missing colons at the end of the preambles, and semicolons at the end of each step. Appropriate correction is required.

2. Claims 7, 8, 12 and 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is unclear from the compressing step of claim 7 whether or not a portion of the compressed material moves through the opening to form the grip. If a portion of the compressed material does move through the opening to form the grip, it should be positively and clearly recited as such.

Claim 8 is confusing because it appears to imply by claim differentiation that the compression-molding step of claim 7 is not performed by a punch. Compression molding inherently uses a punch to distribute material within a mold. It is suggested that the limitations of claim 8 be inserted into claim 7 like amended claim 9.

It is unclear from the wherein clause of claim 16 whether or not a portion of the compressed pellet moves through the holes to form the grip. If a portion of the compressed pellet does move through the holes to form the grip, it should be positively and clearly recited as such.

Correction is required.

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
